Our focus is simple:
**DELIVER
CONSISTENT
PERFORMANCE,
EVERY TIME.**

Mahtek Textiles is a trusted manufacturer of high-performance coated fabrics designed for demanding industrial applications where reliability and consistency matter.

We operate with controlled inputs, defined processes, and disciplined manufacturing systems to ensure repeatable output across every batch.

State-of-the-art

Cutting edge manufacturing facility in Umbergaon, Gujarat

Over 30 years of

manufacturing experience

CAPABILITY SNAPSHOT

- Skilled workforce with experience in coated fabric manufacturing and process handling
- Controlled production environment with defined processes
- In-process and final inspection at multiple stages
- Designed for industrial-grade applications

WHAT SETS US APART

CONTROLLED RAW MATERIALS

- Premium, certified inputs ensure strength, durability, and long-term performance

PRECISION COATING TECHNOLOGY

- Uniform coating ensures consistent thickness and adhesion

IN-LINE INSPECTION

- Every batch is checked at multiple stages for uniformity

IN-HOUSE TESTING

- GSM, tensile, and durability checks for verified performance

DEFINED PROCESSES

- Repeatable methods ensure batch-to-batch consistency

DEPENDABLE DELIVERY

- On time, with fewer rejections and predictable outcomes

COMPETITIVE PRICING

- Efficient manufacturing and process control help deliver reliable quality at competitive prices.

WHY MAFTEK DELIVERS CONSISTENT PERFORMANCE

Consistency isn't a claim. It's a process.

In technical fabrics, performance is defined by material quality and process control.

AT MAFTEK, BOTH ARE ENGINEERED TOGETHER.

WHAT WE MANUFACTURE

COATING CAPABILITIES

- PVC Coated Fabrics
- Acrylic and PU Coated Fabrics
- Blackout Fabrics

SINGLE SIDE COATED FABRIC

- Cost-efficient protection
- Suitable for controlled exposure environments
- Available in Gloss, Matte, and Diamond finish options

DOUBLE SIDE COATED FABRIC

- Enhanced durability
- Designed for demanding outdoor applications
- Available in Gloss, and Matte finish options

COLOR CONTROL

CONSISTENT COLOR PALETTE

We manufacture PVC coated fabrics in standard colours including:

Black

White

Grey

Red

Yellow

Royal Blue

Olive Green

*Custom colour matching
available on request*

COLOR QUALITY GUARANTEE

- Batch-to-batch colour consistency
- Uniform finish across production runs

FABRIC PERFORMANCE

- High tensile strength
- Strong coating adhesion and uniform finish
- Resistance to tearing and environmental exposure
- Designed for repeated handling and long-term use
- Available in **Fire Resistant (FR)** and **Non Fire Resistant (Non FR)** variants
- Available with **Phthalate** and **Phthalate Free** chemical systems based on application requirements

CONSISTENT PERFORMANCE. EVERY TIME.

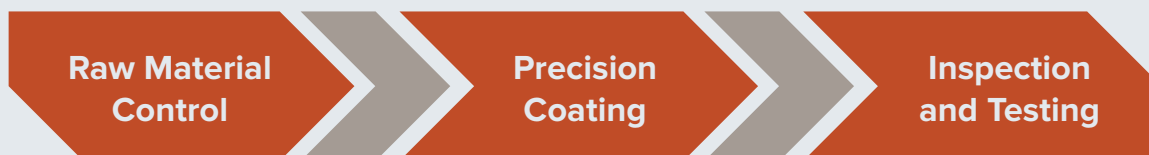

NOT ALL TARPAULINS DELIVER THE SAME PERFORMANCE

OTHERS	MAFTEK
<i>Variable material quality</i>	Virgin-grade inputs
<i>Inconsistent coating</i>	Precision-controlled coating
<i>Limited batch control</i>	Fully traceable batches
<i>Visual-only checks</i>	Tested and verified
<i>Variable performance</i>	Same performance, every time

OUR CONSISTENCY PROCESS

Engineered for consistency. Trusted for performance.

Consistency Guaranteed. Every Single Batch.

**High-performance coated
fabrics engineered for reliable,
consistent performance.**
